Connecting to the Agency ESTRI Gateway using an AS1 or AS2 compatible product.

You will need to provide the following information to the Agency, and we will create a profile on our system for you. The information about our system is shown below and should be sufficient for you to create a profile for us on your system. If there is any other information you need, please ask.

Please use this form to enter your organisation details and return via email. Please remember to include your encryption certificate as well. Also note that only standard ASCII characters can be used in profile information.

**The Routing ID's must be composed of capital A to Z and/or the numbers 0 to 9.
We do not allow the use of special characters**
